

Publicacions 2010

Campus del Baix Llobregat UPC

Biblioteca del CBL
Servei per a la recerca

En aquest document s'han recopilat totes les publicacions realitzades pel professorat del Campus del Baix Llobregat de la UPC durant el període comprés entre l'1 de Gener i el 31 d'Octubre de 2010.

En primera instància, s'han incorporat les referències que apareixen a la Producció Científica de la UPC, i posteriorment s'han comparat i completat amb les que es mostren al DRAC. Els noms complets de cada autor o autora s'ha extret d'aquestes dues fonts.

L'estructura per cada autor o autora es mostra a la imatge següent. Es llisten alfabèticament les referències de totes les publicacions i s'indica, mitjançant les icones laterals, si el text està ubicat a UPCommons, si hi ha l'enllaç directe del text o si no està disponible (absència d'icona). A més, es mostra el departament al qual pertany l'autor o autora, així com el número total de publicacions realitzades en l'esmentat període.

Ribas Prats, Francesca		Número de publicacions
720	Ribas, F. [et al.]. Assessing the suitability of video imaging for studying the Dynamics of nearshore sandbars in tideless beaches. "IEEE transactions on geoscience and remote sensing", Gener 2010, vol. 48, núm. 6, p. 2482-2497.	[3]
Departament	Ribas, F.; Calvete, D.; Falqués, A. Comparison of modelled nearshore transverse sandbars with field observations. A: EGU General Assembly 2010. "European Geosciences Union. General Assembly". 2010, p. 1.	 
	Van den Berg, N.; Falqués, A.; Ribas, F. Modelling high angle wave instability and the generation of large scale shoreline sand waves. A: EGU General Assembly 2010. "European Geosciences Union. General Assembly". 2010.
